Entrepreneurship

The **Eco Creations Fair — 2025**, in which the students of the English Department played a key role, aimed to promote a well-rounded education, foster innovation, creativity and impart life skills. Broadly speaking, this show was conceptualized to prepare students for future career opportunities in a rapidly transforming world.

Furthermore, in sync with the guidelines of NEP 2020, events such as this are likely to enhance cognitive development and promote personal growth of our students. Besides, this show provided a much-needed platform for our students to showcase their ideas, skills and helped them gain practical experience in developing and presenting business concepts.
